

## **SITE RELEASE**

SteelSafe Storage Solutions, LLC and National Container Transport, LLC (hereafter SSS/NCT) drivers will do their best to place all Units ordered by the Customer in the location chosen by the customer. However, it is the Customer that chooses the location and therefore;

- The Customer specifically releases SSS/NCT from any claim arising out of damage to any property that occurs during the unloading or pickup of Unit including, but not limited to, any damages to street, curb, yard, driveway, sidewalk, or other structure or property.
- The Customer remains solely liable for any and all city, state, or local ordinances, including zoning, and all restrictive covenants and other ordinances, and agrees to indemnify and hold SSS/NCT harmless for any fines, assessments, damages, or expense related to any violation of city, state or local statutes or ordinances which may affect the delivery, storage or any use of any unit.
- Should the site not be suitable to support the weight of the truck, trailer and load, and the truck becomes stuck as a result, it is the responsibility of the Customer to hire a wrecker to recover SSS/NCT's equipment to solid ground. Furthermore, customer is responsible for any and all damages to SSS/NCT's equipment resulting from the recovery.
- Customer agrees to compensate SSS/NCT at a rate of \$100/hr for any time over one hour spent on site delivering or picking up Unit.
